HAVE YOU MADE YOUR WILL?

The advantages to be derived by naming this Company as your Executor and Trustee are many, but a few will suffice, viz.:—

1. If you appoint an individual as your Executor and Trustee this Executor may die before your Estate is distributed and in such a case your friend's Executor becomes your Executor. Why not appoint us?

2. Many persons left as Executors to a friend's Will renounce and the Court then appoints a new Executor. Why not us?

3. The Premier Trust Company is experienced in the Administration of Wills and the handling of Estates, whereas a private individual might only have one to administer in his life time. All his experience would be gained at the expense of your Estate.

4. The Company, through its connection, can always get suitable Trust Investments to conform to the Trustee Act so that no interest is lost by delayed investments.

5. The Company has a Corporate existence and never dies.

6. The Company's charges are no higher than a private Executor's, and you have the added advantages of the Company's ample capital and efficient management.

You may have made a Will a long time ago. If so, it will likely require revising.

You may have acquired property in the meantime or disposed of some of the property you willed; this will also require a revising of the Will.

If you married since your Will was made it now becomes null and void.

It is wise to look over your Will, and if any change is necessary, take it to your solicitor and have The Premier Trust Company named as your Executor.

Consult us freely on all matters relating to Wills without incurring any obligations on your part.

TOLEDO SCALES

NO SPRINGS
HONEST WEIGHT

MADE IN CANADA

WHY TOLEDO SCALES GIVE "HONEST WEIGHT"

WEIGHING is simply measuring the force of gravity. There is only one never-varying measure of gravity, and that is gravity itself. Springs vary, but the pull of gravity is constant and unchanging.

It is this constant, never changing pull of gravity which operates the pendulum in Toledo Scales; and the pendulum automatically counter-balances the load on the platter, thereby measuring the weight of the load by gravity itself.

It is the Pendulum that makes Toledo Scales automatic without springs, and therein lies their great practical advantage.

It is the Pendulum that makes possible that confidence-inspiring, trade-bringing slogan, "TOLEDO—NO SPRINGS—HONEST WEIGHT."

SCALES to weigh anything from an ounce of spice to thirty tons of steel.

SCALES for Groceries, Meat Markets, Confectioneries, warehouses, flour mills, abattoirs, dairies, cotton mills and factories.

Look Over Your Printing Needs!

IT IS common knowledge that orders for printing are in nine cases out of ten left until the last minute, then the printer is told to RUSH.

A little forethought given to printing requirements would mean better satisfaction for all concerned; more time for the printer to give best results, less taxing of the customer's patience.

We are always ready, however, to do our utmost for a customer in a hurry. Our record for SERVICE has been built upon this as much as on the QUALITY of our work.
